

Ilex aquifolium aurea marginata cone (AQUIFOLIACEAE)

Ilex, english holly aurea marginata cone

Price	0.00 ₺
Category	Bonsai & special
Sensitivity	-
Resistance to Cold	6A (-23.3_-20.6) °C
Heat Resistance	H4B (+40.8_+43.5) °C
Root Structure	Eaves rooted
Body Color	-
Soil Type	-
Durability	-
Plant Size	2-5 meters
Plant Growth	Slow

Autumn Color	Multi Color
Request Light	Sun, Half Shadow
Leaf Status	Evergreen
Leaf Color	Multi colour
Flowering Period	July
Flower Color	White/Cream/Grey
Fruit Color	Red/Pink

Ilex is a genus of self-produced trees, shrubs or small trees from tropics to temperate zones worldwide other than Australia. Many Ilex species are evergreen; however a few varieties are dedicious. Red fruits are produced in winter after the cream-colored flowers bloom in autumn. Round fruits are red in some species and black in others. They like sunny or partial shade areas.
