

Platanus occidentalis (PLATANACEAE)

Sycamore, Buttonwood, American Sycamore, American Planetree
tipe standart

Price 0.00 ₺
Category Trees

Sensitivity	-
Resistance to Cold	4A (-34.4_-31.7) °C
Heat Resistance	H5A (+43.6_+46.3) °C
Root Structure	taproot
Body Color	-
Soil Type	-
Durability	-
Plant Size	Over 40 meters
Plant Growth	-
Autumn Color	Yellow/Orange
Request Light	Sun, Half Shadow
Leaf Status	Deciduous
Leaf Color	Green
Flowering Period	May
Flower Color	Pink/Red
Fruit Color	Black/Brown

Platanus is natively distributed to Asia, Europe and North America. It is a tree growing up to 25-30 m. The leaves are with 3-5 lobes. They are perennial plants, resistant to cold weather conditions and polluted air. They require plenty of light. Its root is very strong. It tolerates heavy pruning. As the leaves are not affected adversely so much from dust and gases, they are planted in the parks, orchards and avenues of large industrial cities.
